Examiner's Amendment

1. Claims 1, 4, 6-14, 19, 21-30 are pending.
2. The previous rejection of claims 1, 4, 19, and 21 under 35 U.S.C. 102(e) as anticipated by Chien et al. (US 2001/0054003) was reversed by the Board of Patent Appeals and Interferences (BPAI) (BPAI decision March 12, 2009 p 12).
3. The previous rejection of claims 6-14 and 22-30 under 35 U.S.C. 102(e) as anticipated by Chien was affirmed by the BPAI (BPAI decision p 12).
4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. §1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
5. The application has been amended as follows:
 - a. Claims 6-14 and 22-30 have been cancelled (BPAI decision p 12).

Reasons for Allowance

6. Regarding the claimed terms, Examiner notes that a "general term must be understood in the context in which the inventor presents it." *In re Glaug*, 283 F.3d 1335, 1340, 62 USPQ2d 1151, 1154 (Fed. Cir. 2002). Therefore, Examiner must interpret the claimed terms as found on pages 1-17 of the specification. Clearly almost all the general terms in the claims may have multiple meanings. So where a claim term "is susceptible to various meanings... the inventor's lexicography must prevail." *Id.* An exception to this rule is where "means for" language is used. Using these definitions for the claims, the claimed invention was not reasonably found in the prior art.
7. The closest prior art of record is Chien et al. (US 2001/0054003).
8. The prior art of record discloses a conventional system and method for spending loyalty points from a participant's loyalty account by converting the loyalty points to a currency credit and posting the credit to a second account, where the second account is generally a financial transaction account, such as a charge card, that is used to facilitate a transaction (Chien P0002).
9. The prior art of record, however, does not teach at least these elements of claims 1 and 19:

- b. Backing out of the loyalty process, with the loyalty host system, by decrementing the stored point total for the customer by the augmentation amount after receiving the denial of the transaction instruction.
10. Chien teaches a redemption process wherein the currency value for a purchase is converted to a corresponding number of loyalty points necessary to be redeemed to partially or completely pay for the transaction (BPAI decision p 10). In the situation where a chargeback occurs (e.g. when a customer returns the purchased article), the BPAI finds said process does not anticipate decrementing a stored point total by the augmentation amount (BPAI decision p 10). Instead, the BPAI finds that to a person of ordinary skill in the art, the customer *keeps their loyalty points even if the customer returns the purchased item*.
11. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
